

## Cypress Creek FFA Invitational Online Floriculture Practicum

1. When consulting with a bride, a typical bouquet style to consider includes all but which of the following?
  - a. Cascade
  - b. Hand-tied
  - c. Arm bouquet
  - d. Hair Bouquet
2. When preparing arrangements for a wedding, which of the following arrangements can only be three-sided?
  - a. Altar arrangement
  - b. Bridesmaid bouquet
  - c. Reception centerpieces
  - d. Cake table arrangement
3. What is one way that a floral designer can suggest to brides to save money on floral arrangements?
  - a. Having less bridesmaids
  - b. Reusing ceremony flowers at the reception
  - c. Not spreading rose petals on the aisle
  - d. Not using fresh flowers on the cake
4. When should a floral designer typically require full payment to be made?
  - a. Two months before the wedding
  - b. Two weeks before the wedding
  - c. On the wedding day
  - d. Within two weeks after the wedding
5. When designing corsages for a wedding, the designer must know where the corsage will be worn to design and construct it properly. Where are corsages usually not worn?
  - a. The wrist
  - b. The lapel
  - c. The left shoulder
  - d. The arm

Use the table for questions 6-10. A bride at an upcoming wedding is requesting 6 bridesmaid bouquets for her wedding party. Your shop will not charge a labor fee on this order since there are delivery, set-up, and tear-down charges on the final invoice.

Qty Needed per Bouquet	Material	Wholesale Qty	Wholesale Cost
10	Rose	25	\$34.75
6	Ranunculus	10	\$22.25
5	Scabiosa	10	\$11.75
6	Stock	10	\$11.99
½ Bunch	Eucalyptus	Bunch Weight	9.25
1/10 Bunch	Salal Tips	Bunch Weight	4.00
2 yards	#9 Ribbon	30 yards	6.99

6. What is the total wholesale cost of one bridesmaid bouquet?
  - a. \$40.38
  - b. \$42.78
  - c. \$48.33
  - d. \$51.22
